

**Building The Future, Restoring The Past**

مصنع انكور الايد ذ.م.م.  
**ANCHOR ALLIED FACTORY L.L.C.**

[www.anchorallied.com](http://www.anchorallied.com)

MANUFACTURERS OF SILICONE, ACRYLIC & POLYURETHANE SEALANTS, WATERPROOFING COATINGS, AEROSOL PRODUCTS AND ADHESIVE TAPES

# HISTORY

*“Anchor Allied Factory was incorporated in Sharjah, U.A.E. in the year 1995. From a small unit the company has grown to become one of the largest manufacturers of Silicone Sealants, PU Sealants, PU Foam, Spray Paint, Other Aerosols, Adhesive Tapes, and other allied products in the whole of Middle East.*

*During its development, Anchor Allied persistently combined independent innovations and integration of internationally advanced resources to develop the best quality products. The company’s in-house R&D department assisting constantly in improving the product quality, which itself has become a benchmark for products of its kind in markets across the globe. The products are manufactured on the most modern plant with global acceptability.*

*Our goods are exported to 36 countries worldwide mostly to the whole Middle East, Africa, CIS Countries, Indian Subcontinent, Far East, South East Asia & South America. The company also maintains sales offices in Saudi Arabia, Egypt and India for efficient customer support in the region.”*

# PRODUCTS

Silicone Sealants | PU Sealants | Polysulphide Sealants | Acrylic & Duct Sealants  
Hybrid Sealant | Grab Adhesive | Firestop Sealant | Lubricating Spray  
Waterproofing Coating | Polyurathene Foam | Spray Paint | Silver Cloth Duct Tape  
Creape Paper Masking Tape | Aluminum Foil Tape | P.E Protection Tape  
PVC Pipe Wrapping Tape | Contact Adhesive | Steel Epoxy | Penetrating Oils  
PVC Cement | Super Glue

## HOME CARE PRODUCTS

Sanitizer Spray | Disinfectant Sanitizer | Pocket Sanitizer | Clear Surface Sanitizer  
Automatic Dispenser - Sanitizer Spray | Automatic Dispenser - Air freshener  
Insecticides | Room Airfreshener

# ASMACO SEALANTS

## SILICONE SEALANT

## GENERAL PURPOSE

G2100 is a single component acetic cure silicone sealant which vulcanizes on exposure to moisture in the air at room temperature, to produce a flexible elastomeric sealant. It is suitable for all common construction and glazing application. It is easy to apply and offers excellent adhesion to a variety of nonporous substrates such as glass, glazed ceramic tiles and aluminum. It is resistant to ozone, ultra-violet radiation and temperature extremes. Can be applied in all temperatures.

Available Colours: White / Clear /Black

Packaging: 24pc / ctn

## SILICONE SEALANT

## GENERAL PURPOSE

ASMACO 2500 is a single component acetic cure silicone sealant which vulcanizes on exposure to moisture in the air at room temperature, to produce a flexible elastomeric sealant. It is suitable for all common construction and glazing application. It is easy to apply and offers excellent adhesion to a variety of nonporous substrates such as glass, glazed ceramic tiles and aluminum. It is resistant to ozone, ultra-violet radiation and temperature extremes. Can be applied in all temperatures.

Available Colours: White / Clear /Black

Packaging: 24pc / ctn

DUBAI CENTRAL LABORATORY APPROVED

## ANTIFUNGAL

## SILICONE SEALANT

ASMACO 2540 is a one part moisture curing silicone suitable for general construction sealing applications and is highly resistant to moisture. It has excellent resistance to ageing, shrinkage, cracking, and discolouring. ASMACO 2540 high quality performance silicone sealant is ideal for Aluminium / Glass and standard glazing, Curtain wall joining, Metal to metal joints and duct work sealing, Sealing door / windows frames, Sealing Shop windows and green houses, Sealing works in air conditioning. The antifungal properties make this product suitable for sanitary applications.

DUBAI CENTRAL LABORATORY APPROVED

Available Colours: White/Clear/Black/Grey/Beige/Cream/Brown

(Customized colours are also available against orders)

Packaging: 24pc / ctn

## PREMIUM GRADE

## SILICONE SEALANT

ASMACO GP SILICONE SEALANT Is a high quality single component acetic cure silicone sealant which vulcanizes on exposure to moisture in the air at room temperature, to produce a flexible elastomeric sealant. It is suitable for all common construction and glazing application. It is easy to apply and offers excellent adhesion to a variety of nonporous substrates such as glass, glazed ceramic tiles and aluminum. It is resistant to ozone, ultra-violet radiation and temperature extremes. Ideal for cladding and composite panel applications.

DUBAI CENTRAL LABORATORY APPROVED

Available Colours: White / Clear / Black

(Customized colours are also available against orders)

Packaging: 24pc / ctn

## GLASS SEALANT

## SILICONE SEALANT

ASMACO GLASS SEALANT is a high quality single component room temperature curing acetoxysilicone sealant designed to meet ISO 11600 25 LM specification. The product gives superior adhesion on glass and glazing surfaces. The product is resistant to Ozone, UV and temperature extremes. Suitable for all indoor and outdoor applications. Ideal for glass fixing, glazing and fish tank assembling.

DUBAI CENTRAL LABORATORY APPROVED

Available Colours: Clear / White / Black

Packaging : 24pc / ctn

## GLAZING AND WEATHER SEALANT

## SILICONE SEALANT

ASMACO 2781 ACETOXY SILICONE is a one-part, silicone sealant which has good adhesion to a range of non-porous surfaces including glass, aluminum, painted surfaces and composite boards. It offers excellent resistance to aging, shrinkage, cracking and discoloring. The product meets the requirements of international standards viz. ASTM C 920 and ISO 11600. Suitable for aluminium, glass, formica and other non porous construction elements.

Available Colours: Clear / White / Black

Packaging : 24pc / ctn

## SILICONE SEALANT

## MIRROR SEALANT

**ASMACO MIRROR SEALANT** is a CLEAR neutral-curing, noncorrosive, low modulus, 100% silicone sealant with outstanding adhesion that provides a permanent flexible bond for mirrors to painted surfaces, plaster, metal, wood, or ply wood.

Available Colours: Clear / White

Packaging : 24pc / ctn

## NEUTRAL SILICONE SEALANT

## WEATHER SEALANT

**ASMACO 2650** is a single component neutral curing silicone sealant which vulcanizes on exposure to moisture in the air at room temperature, to produce a flexible low modulus elastometric sealant. It has excellent adhesion to most common building materials like glass, glazed surface, painted wood, aluminium and other metals, masonry, concrete, GRP, uPVC, and some plastics. ASMACO 2650 is non corrosive hence suitable for application where bare metals are used. Excellent resistance to weathering, moisture, ozone etc... Suitable for interior and exterior applications.

Available Colours: White / Clear / Black

(Customized colours are also available against orders)

Packaging: 24pc / ctn

## SILICONE SEALANT

## ALL WEATHER SEALANT

**ASMACO 2670** is a single part neutral curing silicone weather sealant with unprimed adhesion to most of the porous and non-porous construction materials like Concrete masonry, UPVC, Glass, EPDM Aluminium, Polycarbonate, Acrylic plastics, Wood etc. The non-staining property of the product makes it suitable for Marble and Granite applications. The product is tested and certified for ASTM C 920, Type S, Grade NS, Class 50, Use NT,M,G. This product is suitable for cladding, glazing and curtain wall applications. ASMACO 2670 is a low VOC product that meets green building requirements.

Available Colours: White / Clear / Black / Grey

(Customized colours also available against orders)

Packaging: Cartridges - 24pc / ctn & Sausages 600ml X 20pc / ctn

## SILICONE SEALANT

## INSULATION GLASS SEALANT

**ASMACO 2677** is a single component, neutral cure silicone sealant which is particularly suitable for indoor and outdoor applications. This is a high bonding, high modulus sealant and offers durable adhesion to most porous and non porous substrates including glass, metals, coated and painted metals, plastic wood, concrete etc. The product is resistant to Ozone, UV and temperature extremes. ASMACO 2677 is developed for use as a secondary sealant in a dual-sealed insulating glass unit. Insulating glass sealant can bond the individual components, forming a weather-resistant unit.

Available Colours: BLACK

(Customized colours are also available against orders)

Packaging: 24pc / ctn

## JOINT SEALANT

## SILICONE SEALANT

ASMACO 2800 is a single component, low odour neutral cure Silicone Sealant which is particularly suitable for indoor and outdoor applications. This is high bonding, low modulus sealant and offers durable adhesion to most porous and non porous substrates including masonry, brick, aluminium, uPVC, Polycarbonate, Polyacrylate, wood, EPDM, glass, and glazed surfaces. The product confirms to ISO 11600 - F&G - 25 LM and is resistant to Ozone, UV and temperature extremes. The product is formulated to resist mold and mildew where high humidity and temperature exist. No primer required for most substrates. 2800 is a low VOC product that meets green building requirements.

Available Colours: White / Grey / Black

(Customized colours are also available against orders)

Packaging: Cartridges - 24pc / ctn & Sausages 600ml X 20pc / ctn

## STRUCTURAL SEALANT

## SILICONE SEALANT

ASMACO 2860 STRUCTURAL SEALANT is a single component, low odour neutral cure silicone sealant which is particularly suitable for structural glazing and cladding applications. This is a high bonding sealant and offers a durable adhesion to most porous and non-porous construction materials including glass, metals and most plastics. The product is non corrosive and is resistant to Ozone, UV and temperature extremes. No surface pre-treatment or primer required for most substrates.

Available Colours: Black

Packaging: Sausages 600ml X 20pc / ctn

## STRUCTURAL GLAZING

## SILICONE SEALANT

ASMACO 2880 is a single component low odour neutral cure silicone sealant which is particularly suitable structural glazing and cladding applications. This is a high bonding sealant and offers a durable adhesion to most porous and non porous construction materials including glass, metals and most plastics. The product non corrosive and is resistant to ozone, UV and temperature extremes. 2880 is a low VOC product that meets green building requirements.

Available Colours: Black

Packaging: Cartridges - 24pc / ctn & Sausages 600ml X 20pc / ctn

## NEUTRAL CURE

## SELF LEVELING SEALANT

ASMACO 2890 SL is a single component, low odour neutral cure Self-leveling silicone sealant for concrete and concrete to asphalt pavement joints. This is a high bonding sealant and offers a durable adhesion to most porous and non-porous construction material. The product is non corrosive and is resistant to Ozone, UV and temperature extremes. ASMACO 2890-SL is a Self-Leveling Silicone Joint Sealant that cures to an ultra-low modulus silicone rubber upon exposure to atmospheric moisture. The cured silicone rubber remains flexible from -30 to 185° C. Asphaltic paving materials have low tensile strengths.

Available Colours: Grey

(Customized colours are also available against orders)

Packaging: Cartridges - 200 Litre Drum

## ASMACO RTV SEALANT

## HIGH TEMPERATURE

ASMACO HI-TEMP RTV SILICONE is a single component, non-sag, 100% RTV silicone sealant that cures to tough, rubbery solid at room temperature upon reaction with moisture in the atmosphere. This high temperature silicone is formulated to withstand temperatures up to 300°C. It can be used in numerous sealing and bonding applications.

Available Colours: Grey / Red

(Customized colours are also available against orders)

Packaging: 24pc / ctn

## ACRYLIC CAULK

## ACRYLIC DUCT SEALANT

ACRYLIC CAULK (ASMACRYL 47) is a mono component elastoplastic sealing putty based on acrylic aqueous dispersion for joints between construction parts subject to moderate stress. ASMACRYL 47 is ready for use and seals internal or external joints on porous surfaces such as concrete, plaster, asbestos, cementitious material, brickwork, cement, wood. It is not recommended for joints in continuous contact with water. Asmacryl 47 is a low VOC products which meets green building requirements.

Available Colours: White / Grey

Packaging: 24pc / ctn

DUBAI CENTRAL LABORATORY APPROVED

## SILICONIZED DUCT SEALANT

## SILICONIZED ACRYLIC

ASMACRYL 52 is a single component gun grade sealant formulated from high quality acrylic emulsions and special fillers. Hence, the product is easy to apply and efficiently seals joints of AC ventilation and ducts. It is ready to use air drying sealant and effectively seals internal and external joints. Asmacryl 52 can be used for sealing all low movement joints. Asmacryl 52 is asbestos free and will not adversely effect plastic materials or corrode metals. It does not have any adverse effect to human skin. Ideal for used on HVAC ducting application Sealing of duct holes, insulation foam joints, Aluminium, MS or Galvanized metal ducts etc. Asmacryl 52 is a low VOC product and meets the green building requirements.

Available Colours: White / Grey

Packaging: 24pc / ctn

DUBAI CENTRAL LABORATORY APPROVED

## ACRYLIC SEALANT

## B2-FIRE RETARDANT

ASMACRYL 55 is a single component gun grade fire retardent sealant based on acrylic emulsions, suitably formulated by using special additives and chemicals. The product is easy to apply and seals joints between construction parts subjected to moderate stress. It is ready to use and seals internal and external joints in porous substrates such as concrete, plastics, asbestos, cement, brick work and wood. Asmacryl-55 can be used for sealing all low movement joints and restricts the passage of fire and smoke from room to room and to escape routes. The sealant is water-based and free from chlorine. The product is paintable. Asmacryl 55 is a low VOC product and meets the green building requirements.

Available Colours: Grey / White

Packaging: 24pc / ctn

# FIRESTOP SEALANTS

## FIRESTOP SILICONE SEALANT

**ASMACO FIRESTOP SILICONE SEALANT** is a single component high performance gun grade fire-stop weather sealant based on fire resistant Silicone formulation. The sealant is suitably formulated by using special additives and chemicals. The product is fire resistant, easy to apply and seals joints between construction parts subjected joint movement.

ASMACO firestop silicone sealant helps to protect combustible and non-combustible penetrations for up to 4 hours fire rating. This product can be used for sealing all movement joints up to 50% and restricts the passage of fire and smoke from room to room and to escape routes. Since the sealant is low VOC, it is user friendly and confirms to green building requirements.

**DUBAI CENTRAL LABORATORY APPROVED**  
**CIVIL DEFENCE APPROVED**

Available Colours: White  
 (Customized colours also available against orders)  
 Packaging: 12pc / ctn

## INTUMESCENT ACRYLIC SEALANT

**ASMACO INTUMESCENT ACRYLIC SEALANT** is a single component high performance gun grade intumescent (fire-stop) sealant based on fire resistant Acrylic formulation. The sealant is suitably formulated by using special additives and chemicals. The product is fire resistant, easy to apply and seals joints between construction parts and penetrations.

Intumescent acrylic sealant helps to protect combustible and non-combustible penetrations for up to 4 hours fire rating. This product restricts the passage of fire and smoke from room to room and to escape routes. Since the sealant is low VOC, it is user friendly and confirms to green building requirements.

**DUBAI CENTRAL LABORATORY APPROVED**  
**CIVIL DEFENCE APPROVED**

Available Colours: Red  
 Packaging: 12pc / ctn

## POLYURETHANE SEALANTS

### ASMACO PU 72

### WINDSCREEN SEALANT

ASMACO PU 72 is an excellent, non-sag, one-component, flexible and high performance polyurethane adhesive that cures on exposure to atmospheric moisture to form a tough, durable adhesive. It is non-conductive allowing the correct bonding to glass incorporating radio antenna or additional electrical equipment. ASMACO PU 72 is a versatile elastic Polyurethane based Adhesive for the bonding of front, side and rear glasses used in Commercial/Industrial vehicles. Suitable for elastic structural bonding (assembly of various materials which are subjected to high thermal and dynamic stress) in the Transportation Industry. It bonds and seals at the same time and has a short tack free and cutting time. It has a good green strength and initial load bearing capacity. It adds torsional stiffness to the final assembly, dampens vibration and sound and is resistant to shock / impact. Sort drive away time of 3 hours.

Available Colours: Black

Packaging: 12pc / ctn

### ASMACO PU 81

### BUS TRUCK RAIL SEALANT

ASMACO PU 81 is a high-quality multipurpose non-sag one component polyurethane sealant suitable for various bonding and sealing applications in transport industry like bus, truck, rail, boats etc. It cures on exposure to atmospheric humidity to form a durable elastomeric bond which can withstand torsional and impact loads. The product meets the requirements of ASTM C920 types and ISO 11600 Classification F 25 HM. It bonds well to a wide variety of substrates and is suitable for making permanent elastic seals of high adhesive strength. Suitable substrate materials are timber, metals, metal primers and paint coatings and ceramic materials. ASMACO PU 81 is suitable for elastic structural bonding (assembly of various materials which are subjected to high thermal and dynamic stress) in the Transportation Industry. Its high viscosity it guarantee a very high initial tack and is suitable for the application of large surfaces glasses typical in the transport industry.

Available Colours: White / Grey

Packaging: Aluminium Cartridges 12pcs / ctn or Sausages 20pcs / ctn

### ASMACO PU 90

### CONSTRUCTION JOINT SEALANT

Available Colours: Grey / Beige / White

(Customized colours also available against orders)

Packaging: 600ml X 20pc / ctn

ASMACO PU 90 is a moisture-curing, one component, polyurethane-based, non-sag elastomeric low modulus sealant formulated to suit most demanding construction sealing applications. It is highly resilient and has excellent recovery characteristics. It can function under wide range of temperatures. Used in sealing movement joints in precast concrete construction, balcony parapets, bridge culverts, retaining walls, etc. for caulking joints around windows, doors, skirting, walls and floor joints.

ASMACO PU 90 is tested and certified to meet the most demanding sealant specifications viz ASTM C 920 and ISO 11600. It is low VOC, meets green building requirements and is safe to be applied in concrete potable water tanks.

## ALL IN ONE

## HYBRID SEALANT

**ASMACO ALL IN 1 HIGH-TECH SEALANT** is an easy-to-use, high strength, elastomeric product which can serve as both adhesive and sealant. It is a waterproof sealant and adhesive making it suitable to be used in wet areas. It is a low odour formulation which free of isocyanates, acids and other harmful chemicals. It cures in 24-48 hours and reaches maximum strength in 7 days. The product is so versatile that it can be used in many areas like DIY, construction bonding and sealing, Automotive viz. glazing, windscreen sealing and body building, marine applications, repair works etc. The product bonds to almost all surfaces except low energy surfaces eg. PE, PP, PTFE etc. In short, it is an all purpose adhesive sealant. The non-corrosive nature of the product makes it suitable for mirror bonding application. The product is designed to meet green building regulations.

Available Colours: Black, White, Grey

Packaging: Cartridges - 24pc / ctn

## INSTANT GRAB

## GRAB ADHESIVE SEALANT

**ASMACO INSTANT GRAB ADHESIVE** is super strong flexible and waterproof adhesive with a quick grab capability, seals and repairs almost everything. It is capable to hold objects in place instantly and cures in 24 -48 hours. Suitable for underwater bonding, sealing and wet area applications. Can be used to stop water leaks without draining. It is mildew, UV and weather resistant. Meets green building requirements.

Suitable for : All types of metals, wood, foam, rubber, tiles, glass, stones, Concrete, plaster, dry wall, fibre glass, composites, most of the Plastics, and much more.

Available Colours: Black, White, Grey

Packaging: Cartridges - 12pc / ctn

## ANCHORSEAL AUTOMATE

## AUTOMOTIVE ADHESIVE SEALANT

**ANCHORSEAL AUTOMATE** Sealant is a one-component, high modulus STP sealant with excellent adhesion to sheet iron, steel. Best suited for most of the bonding and sealing application in automobiles. Short tack free and curing time. Non-sag-exceptional Thixotropic, non-sticky, no shrinkage, improved storage stability, easy to gun, can be easily smoothed, over-paintable, non-corrosive, high-initial load. Increase torsional stiffness of the final assembly. Vibration and sound damping during Wind screen bonding

ANCHORSEALAUTOMATE is a single product that meets almost all automotive applications including panel bonding, sealing, glazing and wind screen fixing.

Available Colours: Black, White, Grey

Packaging: Cartridges - 12pc / ctn

## NO NEED NAILS (N3)

## SOLVENT BASED GRAB ADHESIVE

**N3 NO NEED NAILS** is a solvent based grab adhesive used for bonding mirrors, decorative panels, profiles skirting boards, star nosings, tiles, parquet blanks, veneers, MDF, insulating panels, all metal surfaces, gypsum, concrete, bricks and much more on to almost all type of substrates. This product is suitable for both interior and exterior application.

**ADVANTAGES:** Nail free fixing. Ideal for bonding mirrors. All purpose adhesive for interior decorations and construction industries. Easy to use. High filling capacity, fills gap on uneven substrates till 5mm. Excellent bonding strength on all type of substrates like concrete, steel, wood, plaster boards, glass and most synthetic materials. Fast setting. No rusting. No more wall piercing. Withstands temperatures ranging from -20°C to +80°C.

Packaging: Cartridges - 12pc / ctn

# POLYURETHANE FOAM

## UNIVERSAL POLYURETHANE FOAM

**ASMACO UNIVERSAL MULTI FOAM & ASMACO GOLD UNIVERSAL MULTIFOAM TRIPLE EXPANDING PU FOAM SEALANT**

One component and ready to use moisture curing polyurethane foam mainly used for sealing of insulation sheets, filling of joints and cavities in walls and ceilings. Closed cell structure, resistant to water absorption. Excellent thermal insulation characteristics and very good acoustic characteristics. Suitable for sealing high volume low moment gaps. CFC free.

Available Sizes: 330ml / 500ml / 750ml

Available Types: Hand grade / Gun grade

Packaging: 12pc / ctn

DUBAI CENTRAL LABORATORY APPROVED

## HIGH YIELD POLYURETHANE FOAM

PU foams create one of the world's most popular, energy-efficient and versatile insulations. These foams can significantly cut energy costs. Because the foam has a high R-Value (high resistance to conducting heat), it is widely used for insulation purposes and bonding. Fixing and insulation of door and window frames. Filling and sealing gaps, joints and cavities. Filling of penetrations in walls. Insulating electrical outlets and water pipes Polyurethane foams can be applied on-site to seal gaps and cover irregular shapes.

Available Sizes: 750ml

Available Types: Gun grade / Hand grade

Packaging: 12pc / ctn

**FIRE RETARDANT PU FOAM (B1) / 4 hr. RATING**

**ASMACO GOLD PU FIRE RETARDANT B1 FOAM** is a quick setting single component polyurethane foam with fire retardant properties. Due to its high degree of fire rating slow down the passage of flames and smoke and provides a fire rated seal around window and door frames. It cured at ambient temperature by reacting with atmospheric moisture and on curing it exhibits excellent adhesion to wood, metals door/window frames, glass, painted surfaces, some plastics, concrete, plasters etc... Due to its closed cell structure, cured foam is resistant to water absorption. Cured foam dries rigid and can be trimmed, shaped and sanded. It has excellent thermal insulation characteristics and can be used for insulating hot/cold water piping, refrigerating systems etc.

**DUBAI CENTRAL LABORATORY APPROVED  
CIVIL DEFENCE APPROVED**

|   |
|---|
| Available Sizes: 750ml                  |
| Available Types: Hand grade / Gun grade |
| Packaging: 12pc / ctn                   |

**FIRE RETARDANT PU FOAM (B2) / 2 hr. RATING**

**ASMACO GOLD FIRE RETARDANT B2 FOAM** with CFC Free Propellant. It's a ready to use, one-component, self expanding, fire retardant sealing foam based on 1k Polyurethane technology. It hardens at ambient temperatures to a low density mass by reacting with atmospheric moisture and on curing it exhibits excellent adhesion to wood, metals door/window frames, glass, painted surfaces, some plastics, concrete, plasters etc... Microcellular structure of the foam reveals a majority closed cell structure, hence cured foam is resistant to water absorption. It has excellent thermal insulation characteristics and can be used for insulating hot/cold water piping, refrigerating systems etc.

**DUBAI CENTRAL LABORATORY APPROVED

| Packaging: 12pc / ctn                   |

**PU ADHESIVE FOAM / ETICS / EIFS ADHESIVE**

Bonding of thermal insulation panels on facades (ETICS systems - lightweight method) Bonding EPS boards in thermal insulation systems, bonding mineral wool in thermal insulation systems. Compatible with all ETICS (External Contact insulated Systems). Significantly reduce the risk of valve obstruction and increased gas tension, as the product of a long service life and usability is intended to provide both. Due to its strong and lasting adhesion to polystyrene, it is widely used in construction materials.

- Foamed polystyrene • concrete • plaster • brick • wood • cement• rigid PVC • bitumen sheets
- Solid Polyurethane foams

# WATERPROOFING COATING

## PITCH MODIFIED PU COATING ASMACOAT WP 900

ASMACOAT WP 900 is a liquid applied, coal tar modified single-component moisture curing polyurethane coating. It is designed to form a seamless, elastomeric waterproofing membrane. When fully cured ASMACOAT WP 900 forms a permanently flexible waterproof lining to most of building surfaces including reinforced concrete, block works, brick works, cement render, plaster boards, and fibre reinforced cement boards. It has excellent properties like high elasticity, very good crack bridging and impermeability to water vapour which makes it capable of effectively waterproofing even in the most demanding conditions.

Available Colours: Black

Packaging: 20 Litres Drum

DUBAI CENTRAL LABORATORY APPROVED  
CIVIL DEFENCE APPROVED

## PURE PU COATING ASMACOAT WP 810

ASMACOAT WP 810 is a liquid applied, single-component moisture-curing polyurethane coating. It is designed to form a seamless, elastomeric waterproofing membrane. When fully cured ASMACOAT WP 810 forms a permanently flexible waterproof lining to most building surfaces including reinforced concrete, block works, brick works, cement render, plaster board and fibre reinforced cement. The properties like high elasticity, very good crack bridging and impermeability to water vapour make it capable of effectively waterproofing even in most demanding conditions. It is an advanced state of water proofing system and offers tangible, cost saving benefits over conventional sheet and bitumen based waterproofing systems.

Available Colours: Black

Packaging: 20 Litres Drum

## ALIPHATIC COATING ASMACOAT WP 936

ASMACOAT WP 936 is an aliphatic, one component, liquid applied, moisture cured, polyurethane surface and waterproofing coating. ASMACOAT WP 936 is ultra violet light stable and will retain its surface gloss from glossiness even after prolonged exposure to sunlight.

Available Colours: White/Black/Grey

(Customized colours also available against orders)

Packaging: 20 Litres Drum

## ANCHORSEAL 963 POLYSULPHIDE SEALANT

ANCHORSEAL 963 is a two part polysulphide sealant available in self-leveling pouring grade and gun grade consistency. It is a polysulphide sealant which effectively seals all joints subject to structural movement as well as non-moving joints against ingress of water.

Grades available:

Anchorseal 963 PG – Pouring grade - 4 litres set x 4 pcs / ctn

Anchorseal 963 GG – Gun grade - 2.5 litres set x 6 pcs / ctn

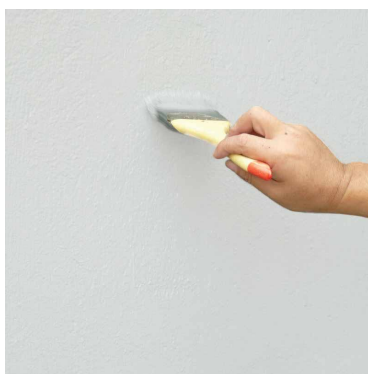

## ANCHOR SEAL WATER STOP SPRAY

ANCHORSEAL WATER STOP is easy to use, rubberized protective coating designed to seal leaks and cracks. Provides a water tight, flexible seal prevents moisture penetration and corrosion. Excellent for chimneys, roof leak, boat, metal, concrete masonry, fiberglass, skylights, gutters, kitchen sink and much more.

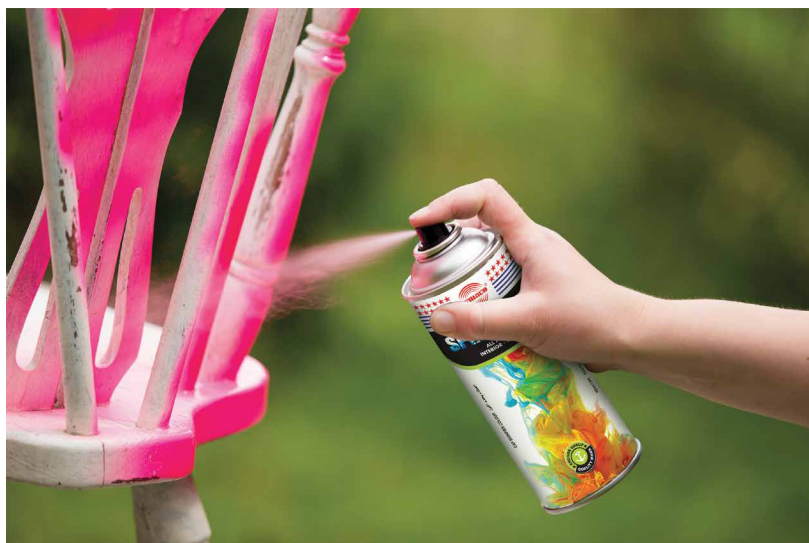

Sizes : 400ml (12pc / ctn) / 100ml (24pc / ctn)

Colours: White / Black / Grey / Tera Cotta

- Special Colours are available based on customer requirements

# ASMACO SPRAY PAINT

## ACRYLIC SPRAY PAINT / PROTECTIVE AND DECORATIVE

**SPRAY PAINTS (COLOURS OF YOUR CHOICE)**-Quick Dry Acrylic Based Spray Paint, gives bright finish, makes surface smooth, good to use both for interior and exterior applications. Highly recommended for use on automobiles, cycles and steel surfaces, wooden furniture, plastic articles, blinds, and other similar objects. Available in various colours. ASMACO SPRAY PAINTS provide good hiding power, coverage and protection against corrosion.

Packaging: 12pc / ctn

## GRAFFITI SPRAY PAINT / ARTISTIC

**ASMACO GRAFFITI SPRAY PAINT** with its exceptional size and manageability experimental initiative, designed for graffiti, sign painting and high precision general decoration thanks to its low pressure and its valve. Made from acrylic base, with an incredibly fast drying time. Retains its color when exposed to the elements due to the high quality of its components.

Packaging: 12pc / ctn

## HIGH TEMPERATURE SPRAY PAINT

**HIGH TEMP SPRAY PAINTS** has a very good thermal resistance ranging from 400°C - 600°C. The paint contains silicon resin along with high quality pigment. Quick drying, smooth finish. Ideal for Interior and exterior application. Most suitable for chimney, barbecues, engines and motorcycles, furnace, stove oven etc. The paint is Non fading, none yellowing, weather resistant and high coverage without running or excessive thickness. The product is CFC Free.

Colour Available: White / Red / Grey / Matt Black / Silver

Packaging: 12pc / ctn

## STYROFOAM SPRAY PAINT

**ASMACO STYROFOAM SPRAY PAINT** is a new product line that creates detail while educating, inspiring and driving innovation into schools, clubs, craft and hobby projects! It is easy to apply and can be used on many kinds of surfaces like styrofoam, brand foam, paper, glass, wood, metal, leather, and ABS plastic. It is not suitable for rubber or flexible types of vinyl because it will not dry on these surfaces; it will remain tacky to the touch. It will not adhere to polyethylene or polypropylene. It has super flow and coverage. Asmaco Styrofoam foam spray paint is lead free.

Packaging: 12pc / ctn

## ASMACO GLITTER SPRAY

## SPARKLING

**ASMACO GLITTER SPRAY PAINT** offers an intense sparkling finish for any craft or decorative project. Our Glitter paint also provides a full coverage of radiant shimmer for many surfaces including wood, metal, wicker, glass, ceramic, pottery, craft foam, paper, plastic and more. Provides full-coverage durability for indoor decorating and home décor.

- Intense Shimmer Finish
- Multi- Surface Use
- Creates a unique, on-trend glitter finish
- High intensity glitter formula gives a multi-dimensional effect
- Creates a sparkling finish
- Indoor use only
- Ideal for scrapbooking pages
- Buildable glitter paint offers a full, vibrant shimmer with a multi-dimensional look
- Multi surface paint resists stains and scratches, shake well before use to mix glitter pigment
- Interior use on accent pieces, holiday decorations, scrapbook projects and many more
- Formulated to create an intense sparkling finish over a base coat of similar color

Packaging: 12pc / ctn

## ASMACO FIXATIVE SPRAY- UV CLEAR COAT

## PROTECTIVE

**ASMACO FIXATIVE SPRAY** is a UV-Resistant acrylic clear coat. It provides a permanent, protective coating which protects, art, crafts, and valuable against harmful light rays. It is moisture resistant and smudge proof. It is suitable for Photography, Artwork, Painted surfaces, Wood, Metal, Paper Mache, Plastic/Ceramic, Dried silk, Flowers, Paper, Wicker, etc. It will improve artwork and protects photos made off with pencil, water paints, oil paints, pastel, chalk, charcoal, crayon and ink.

- Long lasting Protection to pencil, pastel, chalk, charcoal, crayon
- Non fading, none yellowing, weather resistant
- Premium quality, high durable.
- Excellent finish
- Aerosol formulation gives quick, even spray
- CFC Free
- UV Resistant
- Acid-free/archival safe

Available size:100ml & 400 ml

Packaging: 12pcs / ctn & 06pcs / ctn

## ASMACO TUB & TILE CERAMIC SPRAY

### CERAMIC RESTORATION

**ASMACO TUB & TILE CERAMIC SPRAY** is a one-step acrylic spray paint designed to provide excellent adhesion, durability and colour retention in high moisture areas. This smooth, glossy, waterproof finish is suitable for use on tiles, sinks and tubs. Ideal for restoration and coating of bath tubs, washbasins, kitchen sinks. Also usable on wood, metals, plastic, automotive applications etc. Quick drying & smooth finish formula is ideal for Interior and exterior application. Non fading, non yellowing, weather resistant and heat Resistance up to 100°C & CFC Free

Packaging : 400ml X 12Pc / ctn

Colour: White

## ASMACO PRIMER SPRAY

### PRIMER

**ASMACO SPRAY PAINT PRIMER** is an easy to use one part primer that is best suited to be used as filler and adhesion promoter between surface and final coat. The product is coatable with air-drying acrylic, synthetic and nitro-combi lacquers for metals, wood, ceramics, stone, carton and others. Asmaco Spray paint primer is lead & cfc Free. It helps in corrosion prevention, promotes adhesion of the top coat on the substrate & Optimizes the gloss of the top coat and gives an excellent finish

Packaging : 400ml X 12Pc / ctn

Colour: White / Black / Red / Red Oxide / Grey

## ASMACO ADHESIVE SPRAY

### SPRAY ADHESIVE

**ASMACO ADHESIVE SPRAY** is a multipurpose aerosol adhesive. It is fast tacking and has a long tack range when applied to both surfaces. It is translucent adhesive for permanently attaching foils, carpeting, many lightweight foams, paper, plastics, cardboard, felt and cloth to painted or unpainted metals, wood, hardboard and other base materials.

- Excellent Spray Control
- High solid gives better coverage
- User-friendly Aerosol Can
- Long bonding range
- Fast easy application
- Comes with a lace spray pattern for improved accuracy
- Allows for a bond time of 20 seconds to 30 minutes
- Bonding thin films, foils and fabrics
- Picture framing and scrapbooking
- Ideal for crafts and hobbies

Packaging : 500ml X 12Pc / ctn

## ASMACO BOND

### MDF KIT

**ASMACO BOND** is a two part adhesive, cyanoacrylate and an activator spray in aerosol can, that provides quick bonding. Asmaco Bond is best suited for fixing and repairing wooden parts, bonding MDF, wood, chip board, rubber, most of the plastics, leather, ceramic, metals, etc. It is excellent to use in the areas where quick curing of the glue is required.

**Features:** High bond strength, Suitable to bond both horizontal and vertical areas, Suitable for porous and uneven substrates  
High viscous.

200ml X 24pcs / CTN

300ml X 25pcs / CTN

**ZINC RICH COLD GALVANIZING SPRAY**

**ZINC RICH COLD GALVANIZING SPRAY**-Quick dry spray with special zinc dust, containing 99% pure zinc. Galvanic protection against thermal and chemical corrosion. Resists salty and other corrosive atmospheres. Gives semi glossy finish and resistance up to 550°C temperature without degrading and allowing it to be used on materials subject to be welded(except argon welding). Excellent finish with high coverage without running or excessive thickness. Formulation guaranteed free from CFC.

400ml X 12pcs / CTN

**ASMACO LITHIUM GREASE SPRAY LUBRICANT**

**ASMACO WHITE LITHIUM GREASE SPRAY** is a premium quality, lithium based multipurpose aerosol lubricating paste designed to reduce friction between load bearing, moving metal surfaces and the combination of metal and plastic surfaces heavy-duty lubrication and protection against rust and corrosion are required. It provides long lasting lubrication for all metal to metal applications with wide service temperature range (- 15 to +150 °C) and will not splatter, melt, run, wash off or freeze.

Packaging: 400ml x 12pcs / ctn

**RUST REMOVER SILICONE FREE PENETRATING OIL**

**ASMACO LD+50** is a lubricating & penetrating oil suitable for marine, household, garage & maintenance purpose. It's water repellent formula protects metal surfaces and loosens rusty fittings. It penetrates, lubricates & releases jammed joints, door locks, bolts, machines etc. The Hi-Tech formula dissolves grease, tar, adhesives and salt deposit leaving a protective coating on the surface which prevents corrosion. ASMACO+LD 50 is a silicone free formula and hence paintable after cleaning

Sizes : 235ml (24pc / ctn) / 400ml (12pc / ctn)

**RUST REMOVER SILICONIZED PENETRATING OIL**

**ASMACO RS 20 - RUST REMOVER / PENETRATING OIL** silicon Based, specially formulated solvents spray. Penetrates and stops squeaks. It lubricates springs, hinges, windows, doors, lock tapes, wheels, and moving parts. Removes moisture from spark plugs, electrical contacts, switch gears, starter, motor engines, etc. Protects and cleans by dissolving grease, gums, dirt, adhesives and hard substances. Leaves protection on the surface thereby preventing corrosion. Loosens rust and corroded bolts, controls, cables, and many other fasteners. Frees sticky and jammed joints, door locks steep presses, sewing machines controls and cable. Ideal for household and industrial applications.

Sizes : 235ml (24pc / ctn) / 400ml (12pc / ctn)

## UPVC & CPVC CEMENTS

ASMCO WELDFIX is specially formulated solvent based adhesive used for cementing and joining pipes and pipe fittings made of Rigid PVC (U-PVC) or CPVC. It is medium viscosity penetrating adhesive ideal for waterproof bonding and prevents leakage at extreme pressures. It is safe for drinking water pipes after complete curing. ASMCO WELDFIX meets the requirements of International Standards such as BS and ASTM.

Sizes: Tube packaging 125gms X 144pcs / ctn

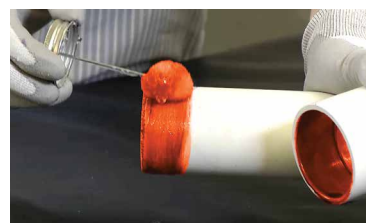

Packaging Can:

118ml X 24pcs / ctn

237ml X 24pcs / ctn

473ml X 12pcs / ctn

946ml X 12pcs / ctn

## PUR ADHESIVE / PROFILE GLUE JOINING ADHESIVE

ASMCO PUR ADHESIVE / PROFILE GLUE is a single part reactive polyurethane based adhesive which reacts with moisture in the atmosphere to form a strong and durable joint resistant to water and temperature. The adhesive can be applied directly from the container, and the curing reaction begins as soon as it comes into contact with moisture. ASMCO PUR ADHESIVE is best suited for all types of wood works, window and door assembly, staircase, plywood, rigid plastic foam, concrete and ceramic.

Sizes: 500ml / 250ml

Packaging: 12bottles / carton

## PUR ADHESIVE / PIR GLUE CONTACT ADHESIVE

ASMCO GOLD SUPER STRONG CONTACT ADHESIVE is a multi-purpose single component air drying Polychloroprene rubber based adhesive, suitably formulated for bonding various types of substrates. It has excellent green strength and bonds rapidly due to its fast crystallization rate. This is a high solid, high viscosity contact adhesive and hence it is suitable for bonding porous substrates like foam, carpets, canvas, wood laminates, MDF laminates, etc... It has excellent adhesion to common substrates and can be used in automotive decoration and repairs, upholstery works, furniture, leather & foot wear industries, fixing of metals & plastics, general house hold & industrial maintenance and DIY use. After drying, glue line is resistant to heat, moisture and also exhibits good low temperature flexibility.

Sizes: Tube packaging 125 gms X 144pcs / ctn

Packaging Can:

250gm X 24pcs / ctn

600gms X 12pcs / ctn

3Ltr X 4pcs / ctn

15kg / pc

# ASMACO SELF ADHESIVE TAPES

## GENERAL PURPOSE / CREPE PAPER MASKING TAPE

Crepe Paper coated with natural rubber adhesive. Easy tear, UV Resistant Tape. Highly conformable crepe paper to give clean release after application. Ideal use for masking, packing, marking, bundling, splicing and general applications.

- Widths & Lengths available based on customer requirements.

## HIGH TEMP 80°C / AUTOMOTIVE GRADE

Crepe Paper coated with natural rubber adhesive. UV Resistant Tape. High Temperature resistance over long periods for critical Masking applications. Highly conformable crepe paper to give clean release after application. Ideal use for baking / stove masking applications and also auto painting, outdoor painting, masking, packing, marking, bundling, splicing and general applications.

- Widths & Lengths available based on customer requirements.

## HIGH TEMP 80°C / COLOR MASKING TAPE

Crepe Paper coated with natural rubber adhesive. UV Resistant Tape. High Temperature resistance over long periods for critical Masking applications. Highly conformable crepe paper to give clean release after application. Ideal use for baking / stove masking applications and also auto painting, outdoor painting, masking, packing, marking, bundling, splicing and general applications.

- Widths & Lengths available based on customer requirements.

Colour: Blue / Green / Orange / Yellow / Brown

## ALUMINIUM FOIL TAPE

A 25 micron (1.0 mil) high tensile strength aluminum foil backing, combined with a high performance synthetic rubber-resin adhesive. Protected by an easy-release silicone release paper is used to seal and protect many critical assemblies & surfaces in a wide range of industries from window glazing manufacture to sealing plates in the flexo graphic printing process, vapor sealing for fiber glass duct board, sheet metal ducts and FSK systems. Feature include : Moisture and chemical resistance, heat & light reflective, helps to protect plastic components, flame resistance, outdoor performance, resists UV and provides long lasting performance.

- Widths & Lengths available based on customer requirements.

## FSK ALUMINIUM FOIL TAPE

## FIBER SCRIM KRAFT

Aluminium foil/scrim/kraft backing with a specially formulated rubber based adhesive interleaved with a release liner designed to meet high strength, tear resistant sealing tape applications. This FSK tape is mainly used to seal and patch FSK duct boards & blankets. It's excellent adhesive system will perform in temperatures ranging from -30°C to 121°C.

- Widths & Lengths available based on customer requirements.

## ALU GALASS TAPE

## GLASS REINFORCED

10 X 10 Mesh Glass Cloth backing with high performance flame retardant solvent free acrylic adhesive protected by an easy-release silicone release paper. Mainly used for joining & sealing Alum glass laminated fiberglass blankets, duct boards joints & seams, joining & sealing industrial pipes insulations seams & connections. Alu Glass Tape is a High Temperature resistant & Flame Retardant Tape. It provides excellent reflection of both heat and light. The Low moisture vapor transmission rate makes ASMACO Tape an excellent vapor barrier.

- Widths & Lengths available based on customer requirements.

## DUCT TAPE

## INSULATION

PE-cloth Tape coated with a pressure sensitive rubber adhesive coating combined to provide a quality product having excellent adhesion and strength. Ideal for sealing, thermal insulation and metal duct seams. It is a good choice for bundling, heavy carton packing, general maintenance, pipe wrapping, carpet fixing, air-conditioning ducts seam and joint sealing etc.

- Widths & Lengths available based on customer requirements.

## PVC PIPE WRAPPING TAPE / UNDERGROUND PROTECTION

Features a stabilized, plasticized PVC film coated with non-corrosive, pressure-sensitive adhesive. It is moisture resistant anti-corrosive, and highly conformable. It has strong adhesions to metals and plastics. It is best suited for under ground construction applications.

Colours: White / Black

Packaging:

2" X 60ft (60pcs / ctn)

2" X 80ft (60pcs / ctn)

3" X 60ft (48pcs / ctn)

## ELECTRICAL INSULATION TAPE / FIRE RETRADANT

PVC pressure sensitive, flame proof electrical Insulation tape is a PVC electrical insulation tape with a highly conformable backing used for insulating, splicing, and connecting, bare wires, for repair work and general industrial maintenance. Provides high dielectric strength and insulation resistance. Compliant to UL standards. Applications include: Electrical Insulation and splicing. Connecting bare wires, Electrical repair work. General Industrial maintenance.

Packaging: 19mm x 10 yards - 500pcs / ctn

Colours: Black / Red / Green / Yellow / Blue / Yellowgreen

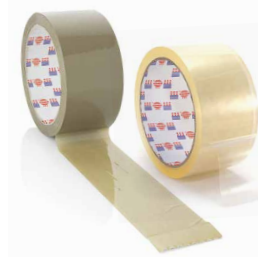

## BOPP PACKING TAPES / PACKAGING TAPE

Biaxially oriented polypropylene film coated with pressure sensitive water based acrylic adhesive. Printable and has excellent weather resistance. It is a good choice for bundling & strapping, heavy carton packing and standard packing applications.

Colour: Tan / Clear

- Widths & Lengths available based on customer requirements

## FIBER GLASS TAPE / DRYWALL JOINING TAPE

Drywall joining tape is a Self-Sticking 100% fiberglass tape for fast and easy drywall joints. It eliminates pre-plastering and provides strong reinforcement. Mesh will not trap air that causes blisters and bubbles.

- Widths & Lengths available based on customer requirements.

## RTV SEALANT

## SILICONE GASKET MAKER

**SILICONE GASKET MAKER** is one component, ready to use sealant designed for form-in-place gasketing where high temperature occur. ASMACO RTV Silicone Gasket Maker cures upon contact with atmospheric moisture at room temperature to form an elastomeric, resilient silicone rubber gasket. The rubber-like seal formed after curing is highly resistant to weathering and UV exposure, is unaffected to high and low temperature, and has excellent adhesion characteristics. ASMACO RTV Silicone Gasket Maker is often used for engine, gear box, motor flange, casing, water pump, oil pump, radiator, differential gear and other engine parts, boilers, water heaters as well as on wood, ceramics, glass, etc.

Available in Black, Red, Blue, Clear & Grey colours.

Packaging: 12pc X 12 Doz / ctn

## CLEAR EPOXY ADHESIVE

**ASMACO CRYSTAL CLEAR** is a 2K quick setting epoxy adhesive automatically dispenses two equal parts with one push. This adhesive is suitable for bonding glass, metal, ceramics, wood, tiles, fiber glass and some plastics. No mess no spilling and no dried out tube. Allows 4-5 minutes positioning time for parts.

Packaging: 12pc X 12 Doz / ctn

## EPOXY STEEL

## EPOXY ADHESIVE

**EPOXY STEEL** is a two part ambient curing Epoxy adhesive suitable for general applications and repair works of metal parts. Best alternative to welding. A quick curing adhesive with a short pot life of 4minutes. Asmaco Epoxy Steel develops it's 70% of strength in one hour. The cure product can be machined using common machining operations. It is resistant to gasoline, antifreeze and almost all solvents.

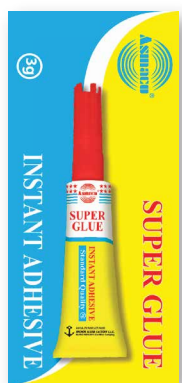

Size: 2 X 28.5gms tube

Packaging: 12pc X 18 Doz / ctn

## SUPER GLUE

## INSTANT ADHESIVE

**SUPER GLUE** is one part Cyanoacrylate adhesive suitable for general purpose applications and repair works of metal parts. This is a quick curing adhesive, strength development as fast as 5-30 seconds. It works faster and holds stronger on more surfaces than ordinary instant adhesives. The liquid formula works well on a variety of porous, non-porous surfaces and close fitting repairs. It dries clear and sets without clamping. ASMACO Super Glue Liquid is resistant to moisture, most chemicals and freezing temperatures

Packaging: 12pc x 24 card / ctn

**ASMACO BUTANE GAS****CAMPING GAS**

**ASMACO PORTABLE GAS** can is cooking gas designed to use in portable gas stoves specially designed to be portable and lightweight, used in camping, picnicking, backpacking, or other use in remote locations where an easily transportable means of cooking or heating is needed. ASMACO Butane gas is ideal for portable stoves in diverse situations, such as for outdoor food service, catering and in field hospitals

This cartridge is certified by  
MIRTEC SA / EBETAM A.E.

220 g X 24pcs / ctn

220 g X 28pcs / ctn

**ASMACO LIGHTER REFILL BUTANE GAS**

**ASMACO LIGHTER REFILL BUTANE** gas having high quality and ultra-refined butane gas in aerosol CAN. Due to its lower pressure, it's very easy to refill any lighter with provided Multi Nozzle. It is suitable for cigarette lighter, blow torch, professional butane torch lighter and so many other lighter.

Available size: 250 ml

Packaging: 72pcs / ctn

**TETRON-R134A****REFRIGERANT GAS**

**Tetron-R134A** is a 99.9% pure inert gas used primarily as a "high-temperature" refrigerant for domestic refrigeration and automobile air conditioners. It also used as a propellant for aerosol and a blowing agent for extruded polystyrene foams.

Tetron-R134a, is a haloalkane refrigerant with thermodynamic properties similar to R-12 but with less ozone depletion potential and has an excellent safety performance. It is a colourless gas under ordinary temperature and a colourless and transparent liquid under pressure.

Packaging: 13.6 kg X 1 pc

1 kg X 15 pcs / ctn

340 g X 30 pcs / ctn

**SILICONE & ACRYLIC SEALANTS**

**FIRE STOP SEALANTS**

**POLYURETHANE SEALANTS**

**WATER PROOFING COATINGS**

**POLYSULPHIDE SEALANTS**

**CONTACT ADHESIVE**
